1/10/75

Dear Sam,

Thanks for your note, the Commentary and the second booklet. I'll find a goy who will find it interesting, as I didx and did with the first copy.

To me Jerry Cohen is a Judenrat.

In time I'll read what you sent.

I never debate except in debates and you'll not get him to debate me. He'll remember the time he fled a TV studio in 1966 after a dose of what I promised him the night before when he pontificated about his genius, scholarship, effectiveness, etc.

He is effective, as any learned man can be, as long as he does not have confrontation and can lie and deceive.

With phlebitis I work a day and a half each day.

I want it to be constructive.

Cohen is a flea who bites only in the copped-out eastern intellectual community. They have their peers in the Hitler era as I see it.

I think I have an appearance at Barnard or Hunter St. Patrick's day. If you are then in New York maybe we can get together again.

Best,
